PROFESSIONAL EXPERIENCES

2023 - Present
Gap Years & Freelancing

Freelancer Frontend Developer

Transitioned into freelance work to explore modern web technologies, expand expertise, and contribute to real-world projects. During this period, I focused on mastering React, Next.js, optimizing web performance, and improving user experience.

Projects:

- https://nongsanductai.vn – Product Management System
  - Developed a full-stack system for product management.
  - Implemented QR Code scanning to access product details.
  - **Tech stack:** *Next.js, Prisma, SQL, Tailwind, Prisma, AuthJs, shadcUI, Git, …*

- https://nhu-tran-porfolio.vercel.app – Portfolio Website
  - Designed and developed a personal portfolio to showcase projects.
  - Features: Dark mode, smooth scrolling, animated background.
  - **Tech stack:** *Next.js, Tailwind, Three.js, Framer Motion, Git, Vercel, …*

2021 - 2022
Nakivo

Senior Frontend Developer

- Developed component-based architecture to enhance code reusability and maintainability.
- Built advanced filtering, sorting, and pagination features to improve data management.
- Designed real-time data visualization dashboards, integrating with backend APIs.
- Optimized performance and ensured cross-browser compatibility.

Technologies Utilized: *ExtJS, Bootstrap, PostgreSQL, Spring Boot, Spring Framework, SVN, …*

2016 - 2021
Sprialedge

Frontend Developer

- Developed responsive UI components using Angular, improving UX and accessibility.
- Implemented interactive maps, calendar scheduling, and dynamic charts to enhance the farm management platform.
- Integrated subscription-based payment system, increasing user engagement.
- Collaborated with backend engineers to optimize API integration and data processing.

Technologies Utilized: *AngularJS, OAuth, GIT, Jenkins, D3JS, …*

2010 - 2015

UI Website Developer

- Developed and maintained responsive web applications with HTML, CSS, and JavaScript.
- Integrated RESTful APIs, improving data fetching efficiency.
- Implemented cross-browser compatibility solutions.
- Built custom Joomla CMS plugins and templates.

Technologies Utilized: *HTML, Javascript, Bootstrap, CSS, JQuery, AJAX, Media query, Joomla, …*
