SUMMARY

With over 10 years of industry experience and 5 years specializing in cutting-edge JavaScript frameworks like Angular, ExtJS, and React, I excel in developing, optimizing, and maintaining reusable and scalable code. My expertise ensures pixel-perfect UI/UX and seamless integration of frontend components with backend services to boost operational efficiency. Focused on web performance and delivering exceptional user experiences, I have driven significant results, such as increased user engagement and reduced load times. Whether working independently or as part of a collaborative team, I am passionate about leveraging my skills to achieve impactful outcomes.

SKILLS

Languages:

- HTML/CSS
- Javascript/jQuery
- Typescript
- SASS/LESS

Frameworks:

- AngularJS/Angular
- ExtJS
- React
- Bootstrap/Material UI/TaiwindCSS
- RESTful Web services

Others:

- Command line tools
- Package managers
- Git/SVN
- Jenkin/Jira
- Figma/Skectch/Zeplin

WORK EXPERIENCE

Freelancer
Web developer

2023 – current

Project: Application for managing driving course registrations.

Main duties:
- Created reusable components to speed up development.
- Ensured code quality, reliability, and responsiveness across various designs and browsers.
